

## Louisiana State Project

### God's Unchanging Hands Feeding Ministry Inc.

God's Unchanging Hands Feeding Ministry was started in 2016 by Pamala McKay. They became a 501c in 2018. She was a single mother dealing with hardship in life. This is why she started this ministry and now five years later they are building networks in the communities. She uses many different approaches to assist the community.

They are focused on doing God's Will. To help our powerless, to develop lives, teach people who cannot persevere or compose fundamental abilities, assisting families to security, and uniting associations to collaborate on assets to help our networks.

On Wednesdays they make and deliver meals to 280 – 300 people in St. Tammany and Tangipahoa Parish. They offer 2 separate meals for the elderly as well as a hot meal to impoverished families and the homeless. They also help out in other soup kitchens around the area.

They are in partnership with several restaurants which donate food and supplies. Perishables are delivered to families.

Besides providing meals they also have a community garden in Covington. The primary objective with the Community Garden is to show how to eat more beneficially. Food from the garden will be used in preparation of the meals given out with excess being given to impoverished families in the community. They are also working with First Christian Church in Hammond to hopefully set up another Community Garden.

They are searching for a permanent place with kitchens and extra room to offer other outreach programs, such as Reading and Writing Classes, Secondary Language programs, Home Economic Classes, as well as Kid and Senior Programs.

Items they always need are: Large brown paper bags (grocery bags), three compartment plastic (foam) trays with attached lids (take out boxes), 12 oz. plastic (foam) bowls with lids, paper towels and plastic spoons, forks and knives. And of course, money to supplement their budget is always welcome.
